

PRCC On-Ice Procedures:

Please note the following relating to on-ice procedures, including traffic flow:

1. On entering the ice surface, **Skips** report to the far end of their sheet;
2. Practice slides are allowed, but under strict distancing rules;
3. The **Lead** that is 1st to throw secures their first rock and assumes position in the hack; the designated sweeper (2nd or 3rd) takes their position between the T-line and the hog; the person not sweeping stands on the back boards behind and to the side of the Lead;
4. Players from the other team take their positions on the distancing marks, per the diagram;
5. Teams that are playing on sheets 1 & 3 use the distancing marks along the walls; teams on sheet 2 can use distancing marks on either side of sheet 2;
6. The designated sweeper can **ONLY** sweep between the hog line and the T-line;
7. **Skips cannot sweep;**
8. The person not sweeping **MAY** follow the person releasing the rock down the ice and provide instructions to the sweeper, but **MUST** maintain social distancing and **NOT** go past the hog line at the other end of the sheet;
9. Once the rock is released, players on the opposing team take the same positions as detailed in (2) and (3) above
10. Players on the team that just threw then take up their positions on the distancing marks just vacated by the opposing team. This cycle continues throughout game play;
11. At the conclusion of each end of play, rocks are organized in order in single file next to the hacks – **ONLY** move rocks with brooms versus by hand;
12. The 3rd on the team (or 2nd if only 3 players per team) throwing **YELLOW** rocks is the **DESIGNATED SCOREKEEPER**. He/she is solely responsible for noting the score after each end AND recording the score at the end of the match;
13. When the buzzer (or series of buzzers) sounds, this indicates that the end being played at the time may be completed plus **ONE** additional end. The exception to this is if the SKIP's last rock has been thrown and has crossed the far hog line prior to the buzzer sounding. In that case, **TWO** additional ends shall be completed;
14. When the match is completed, the **Lead** from each team shall line up their coloured rocks in single file at the Lobby end of the sheet (see diagram above);
15. Prior to exiting the ice surface, **ALL** players are required to don masks prior to entering the Lobby;
16. Upon completion of gearing down (prior to leaving the Club or going up to the Lounge), players are responsible to sanitize the bench surface they were sitting on. If going up to the Lounge, players are encouraged to leave their gear along the back wall.

GOOD, SAFE CURLING!
